SUMMARY

Web Developer / Computer Repair Technician with a broad knowledge of Windows, and Linux Environments; Interested in pursuing an Entry Level Web Development, Web Design, or Computer Repair position.

Currently in pursuit of a Bachelor's Degree in Computer and Information Systems at Arizona State University. A self-taught Web Developer, proficient in HTML5, CSS3, JavaScript, PHP, and MySQL. Hobbies include learning new programming languages, creating Batch Scripts for Windows, and repurposing old laptops.

EXPERIENCE

Web Developer / General IT, Brown's Partsmaster

Glendale, AZ — 2012-Current

Manages and writes code for the website. Takes pictures, and designs all images for the product merchandise. Maintains stock of new supplies and computer components for the company. Diagnoses Problems with website, computers, and any electronic equipment on hand.

Accomplishments

- Designed and implemented new layout for website in 7 days.
- Created custom Map with Google's API to host on webpage.
- Implemented 'Help Desk' system to track computer inventory and maintain help desk tickets.
- Upgraded 30+ workstations from Windows XP to Windows 7.
- Assisted in Migration from Windows SBS Server 2003, to Windows Server 2008, and Exchange 2013.

Easy Tech Resident, Staples

Carefree, AZ — 2010-2012

Diagnose and repair customer's computers and tech devices. Assist customers in purchasing tech and business management products. Replaced major components in computers, and printers. Responsible for the well-being of all computers in the repair center. Assisted on the sales floor in selling printers, electronics, and service plans.

Accomplishments

- Employee of the Month
- Top Service Plan salesman.
- Resident Technician, expediting any and all computer repair.

EDUCATION

Glendale Community College

Associates in Business with Special Requirements — 2009-2012

Classes include general education and computer classes required in order to complete a 'transfer map' to finish up a BA degree at ASU.

SKILLS

- Very proficient in learning new programs and policies.

- Able to 'put in layman's terms' most tech speak to help explain to clients/coworkers.
- 8+ years experience in diagnosing problems with windows machines.
- 3+ years coding HTML, CSS, jQuery, PHP and JavaScript in Notepad++
